YOUR PATH. YOUR PACE. BETTER HEALTH AHEAD.

## GLP-1 MEDICATIONS

*Information & Clinical Overview*

### About GLP-1 Therapy

GLP-1 medications support weight management, blood sugar regulation, and metabolic health. They slow gastric emptying, reduce appetite, and improve insulin response.

We offer compounded Tirzepatide (Zepbound/Mounjaro) and Semaglutide (Wegovy/Ozempic). Dosing is individualized and adjusted gradually based on tolerance and response.

### Who Is a Candidate?

- Adults seeking medical weight management support
- Patients with insulin resistance or metabolic syndrome
- BMI  $\geq 30$ , or  $\geq 27$  with weight-related conditions
- Those committed to lifestyle modification alongside therapy

## Monthly Pricing

Medication & Dose	Ascent Premier Membership Price
Tirzepatide $\leq 1.25$ mg	\$175
Tirzepatide 1.226–2.5 mg	\$225
Tirzepatide 2.6–5 mg	\$325
Tirzepatide $> 5$ mg	\$375
Semaglutide $\leq 0.5$ mg	\$125
Semaglutide $> 0.5$ mg	\$275

*Pricing is dose-dependent and subject to change based on wholesale medication costs.*
