

ASCENT HEALTHCARE

YOUR PATH. YOUR PACE. BETTER HEALTH AHEAD.

GLP-1 Program Pricing

We believe exceptional care should also be exceptional value. As manufacturer pricing and the GLP-1 landscape continue to evolve, we're committed to regularly reviewing our pricing so our Premier Members continue to receive meaningful savings whenever possible. All medications are sourced from **FDA-registered 503B outsourcing facilities**, ensuring the highest standards of quality, safety, and consistency.

Premier Members (those paying a monthly membership fee) receive preferred medication pricing, direct access to their provider, ongoing medical supervision, personalized treatment adjustments, discounted InBody body composition scans, and additional member-exclusive benefits.

Monthly Pricing

Medication & Dose	Ascent Premier Membership Price	Non-Member	Member Savings
Tirzepatide $\leq$ 1.25 mg	\$165/mo	\$190/mo	Save \$25/mo
Tirzepatide 1.26–2.5 mg	\$199/mo	\$220/mo	Save \$26/mo
Tirzepatide 2.6–5 mg	\$299/mo	\$325/mo	Save \$26/mo
Tirzepatide $>$ 5 mg	\$349/mo	\$375/mo	Save \$26/mo
Semaglutide $\leq$ 0.5 mg	\$115/mo	\$140/mo	Save \$26/mo
Semaglutide $>$ 0.5 mg	\$249/mo	\$275/mo	Save \$26/mo

Pricing is dose-dependent and subject to change based on wholesale medication costs and market availability.

InBody Body Composition Scan Pricing

Service	Ascent Premier Membership Price	Established Pay-Per Visit Patient	Community (Non-Patient)
First Annual Baseline Scan	Included	\$60	\$95
Additional Scans	\$35	\$60	\$95

More Than Medication

Your GLP-1 program includes far more than a prescription.
As an Ascent Premier Member, you'll receive:

- Personalized medical evaluation and treatment plan
- Ongoing provider follow-up and dose adjustments
- Direct access to your care team for medication support
- Guidance to minimize side effects and maximize results
- Nutrition and lifestyle counseling focused on preserving muscle and long-term success
- Individualized treatment based on your goals, medical history, and response to therapy
- Access to high-quality medications sourced exclusively from FDA-registered 503B outsourcing facilities

Track More Than the Number on the Scale

Successful weight loss isn't just about losing pounds. It's about preserving muscle, reducing visceral fat, and improving your overall metabolic health.

That's why we encourage body composition tracking with our InBody 380, which provides detailed information about:

- Body fat percentage
- Skeletal muscle mass
- Visceral fat
- Water balance
- Basal metabolic rate
- Progress over time

Whether you're using GLP-1 therapy, building muscle, or simply working toward better health, an InBody scan provides a much more meaningful picture of your progress than the number on a traditional scale.

Our goal isn't to be the cheapest. It's to provide the highest-value medically supervised GLP-1 program by combining evidence-based care, high-quality medications, and personalized support throughout your journey.
